

CONTRACTOR SAFETY TRAINING

The below training requirements and schedules are for Hemlock Semiconductor Operations LLC (HSC). Please email notification.training@hscpoly.com to register for the training classes for HSC.

Training Requirements:

Security Background Checks

- In order to get a badge for Hemlock Semiconductor facility you must have a background check. **This must be updated every 7 Years.** A GLSTC Security Passport, TWIC, or a HAZMAT Drivers Endorsement will qualify. If a Contractor changes companies, they must get a new background check.

OSHA 10 Certification

- All contractors must complete a 10-hour, or longer, OSHA or state-specific OSHA (e.g. MIOSHA) class. Must present proof of your OSHA card or certificate when getting your badge.

HSC Initial Safety Orientation (One Time Training)

- All Contractors that are accessing our site and taking our Safety Classes for the first time must attend the Initial Safety Orientation. This training is instructor led and will take approximately 60 minutes to complete.
- Classes are held Monday mornings at 07:30am at T-98.
- **MUST REGISTER FOR INITIAL TRAINING OR CLASS WILL NOT BE HELD.**

Yearly Safety Refresher Training

- **Upon a year of receiving the Initial Safety Orientation Contractors are required to view a 15 minute safety training presentation as a refresher and take a 15 question test to demonstrate safety competence.**
- If you go more than two years without accessing HSC, you will need to complete the initial orientation.
